

Managed Service Provider Program

Increase revenue with value-added IT security offerings and exceptional service to beat the competition in a crowded MSP market.

Market Opportunities

61% of SMBs are now being hit **by cyber-attacks** every year¹

By 2019 there will be an estimate **shortage of 2 million cybersecurity professionals** worldwide²

Managed security services are now the **fastest growing segment** of the IT security sector³

By 2020, managed and **subscription-based security services** will account for **half of the revenue generated** in the cybersecurity category⁴

«Cybersecurity is probably the most important aspect for our customers at the moment.

The most important thing for us in a security partner is reputation and quality of product. And in Kaspersky we found both»

Mark Allbutt, Technical Service Director, Probrand

Let us help grow your business

Kick start your security offering with easy-to-manage solutions, then grow your portfolio without limits, providing a wide range of services, from endpoint security to hybrid cloud protection. With Kaspersky you can add dozens of new services to your portfolio, upselling to clients as their requirements mature.

endpoint protection, secure mobility, mail security, web security, virtualization protection, cloud security, security awareness training and much more

We'll help you deliver

We'll support you in providing new services easily – with no extra resources needed.

And we'll help you turn your team into cybersecurity pros – developing their skills with our assistance.

We'll help increase your profitability

You'll be offering compelling IT security services that differentiate you, and which also increase your margins.

So many upselling opportunities

Start your security practice with basic services and have more options to upsell when it's time:

Antivirus protection
Advanced malware protection
Endpoint hardening
Ransomware protection
Managed endpoint control
Secure mobile management
Anti-spam/anti-phishing
Secure virtualization
Secure Internet security access
Employee security awareness and training
and even more...

Be more effective

Boost your effectiveness with automated security scanning and updates, remote security client deployment and centralized security dashboards.

Simplify complicated tasks with automated ticketing and billing.

To make life easier, we support the major RMM and PSA platforms, including:

- Autotask®
- ConnectWise® Manage™
- ConnectWise® Automate™
- Tigerpaw® One
- SolarWinds® N-central®

Cloud and On-premises

Unlike other vendors, with Kaspersky you are free to choose:

- Cloud-based security – starting with zero investment
- On-premise security – delivering advanced management capabilities
