SECURING MOBILE & BYOD ACCESS FOR YOUR BUSINESS

10 QUESTIONS TO HELP YOU BUILD YOUR STRATEGY

1. Is mobile access necessary within your business?
2. What are the potential business benefits for BYOD?
3. Why does your workforce need mobile access?
4. What are the legal issues and risks associated with BYOD?
5. What data or systems will they need to access?
6. Who are the various stakeholders and how is each affected?
7. Is a risk assessment required for each group of stakeholders?
8. Will the business need to establish new HR policies?
9. Are there corporate systems and security policies already in place?
10. Do employees use personal smartphones for business tasks?

Incorporate systems and data that employees need to do a better job...

BUT THERE ARE SECURITY RISKS

44% of employees use personal smartphones for business tasks
47% of smartphones used to work in coffee shops or other public places

COMBAT THE RISKS BY ROLLING OUT A BYOD STRATEGY

See it. Control it. Protect it.

Giving your workforce access to corporate systems and data can help everyone do a better job...

BUSINESS TASKS
COFFEE SHOPS OR OTHER PUBLIC PLACES

...TO WORK IN

of employees use personal smartphones for business tasks

...of employees use smartphones
